# MONTHLY COMPLETION REPORT ON U.S. OIL, GAS AND DRY WELLS

---

Wells actually completed in the current month may not be reported until several months later. Therefore, these data are preliminary and subject to revision. The chart shown below illustrates the cumulative number of wells completions for the current month and each of the eleven prior months, as now reported to the API. For comparison purposes, a correspondsing curve describes the data, as then reported to the API, for the same twelve-month period a year ago.

The number of wells shown in the chart excludes stratigraphic and core test and service wells. The geographic distribution for wells completion and footage drilled is available on a quarterly basis, in the API publication entitled the **"Quarterly Completion Report"**.

**TABLE I AND TABLE II:**

1. The cumulative number of wells reported in this table is the total number of wells included in the API database for each of the months and years shown, as of March 27, 1992. These data are preliminary and subject to further revisions.

2. Includes multiple completion wells which produce oil from at least one zone, but may produce gas from one or more zones. A multiple completion well is counted as one well.

3. Includes multiple completion wells which produce gas from all zones. A multiple completion well is counted as one well. Gas wells also include so-called condensate wells.

4. Includes stratigraphic and core tests and service wells. (Not applicable to Table II.)

**TABLE III:**

1. Total number of wells received by the API during the report month and classified by completion month and year. These wells are included in Tables I and II.

2. See footnote (2) above.

3. See footnote (3) above.

4. Includes stratigraphic and core tests and service wells.

5. Total wells reported are those received by the API for the report period February 29, 1992 through March 27, 1992. The sub-totals shown for each yearly period may not add up to the total wells reported for the period. Some wells, received during the report period, may have been completed in years prior to those shown in Table III.
